it is somewhat curious that there is so far as i know no complete handling in english of the subject of this volume popular and important though that subject has been dunlop s history of fiction an excellent book dealt with a much wider matter and perforce ceased its dealing just at the beginning of the most abundant and brilliant development of the english division sir walter raleigh s english novel a book of the highest value for acute criticism and grace of style stops short at miss austen and only glances by a sort of anticipation at scott the late mr sidney lanier s english novel and the principle of its development is really nothing but a laudatory study of george eliot with glances at other writers including violent denunciations of the great eighteenth century men there are numerous monographs on parts of the subject but nothing else that i know even attempting the whole i should of course have liked to deal with so large a matter in a larger space but one may and should cultivate the garden even if it is not a garden of many acres in extent i need only add that i have endeavoured not so much to give reviews of individual books and authors as to indicate what mr lanier took for the second part of his title but did not i think handle very satisfactorily in his text i may perhaps add without impropriety that the composition of this book has not been hurried and that i have taken all the pains i could by revision and addition as it proceeded to make it a complete survey of the novel as it has come from the hands of all the more

important novelists not now alive up to the end of the nineteenth century
